Orientation Reminder:

GCS will host a middle school orientation and a high school orientation on Thursday, August 30, 2018. The middle school orientation will begin at 5:00 PM in the chapel. The high school orientation will begin at 7:00 PM in the chapel. Students should bring this schedule with them on Orientation Night.

6th Grade Bible Class: To the Ends of the Earth

This New Testament journey exposes students to hostile cities, magnificent temples, and raging seas. Students will meet a wealthy soldier, stinky tanner, sleepy student, reluctant king, faithful martyr, godly business-woman, and others as they experience the birth and expansion of the early church and the work of the disciples.

Fine Arts Elective Rotation Classes

The Technology elective was developed to teach students basic computer applications that will be used throughout their middle and high school careers. Students work to become proficient at Microsoft Office (Word, PowerPoint and Excel) as well as improve their word processing skills and speed. Sixth graders will take the Technology elective during the 1st quarter and seventh graders during the 2nd quarter.

STEAM stands for science, technology, engineering, art, and mathematics. In this elective, students are introduced to the basic concepts within these disciplines. This elective expands students' minds and their imaginations using engaging hands-on lessons to solve real world problems. One goal of STEAM is to help students see the talents that God has given them and careers they can pursue to use those talents for His will. Seventh graders will take the STEAM elective during the 3rd quarter and sixth graders during the 4th quarter.

In the Spanish Cultures elective, students are exposed to the Spanish language and the beauty of another people group that God created. This elective class explores the rich culture, geography, people, customs and language of the many Spanish speaking countries throughout the world. This elective course provides a foundational introduction to the Spanish language courses required for graduation. Sixth graders will take the Spanish Cultures elective during the 3rd quarter and seventh graders during the 4th quarter.

The Middle School Art elective is fueled by the flexibility to create challenging and successful projects designed for various degrees of talent and artistic ability. Because art is a universal language, stories can be told, history can be taught, and creativity can soar through the expression of art. Seventh graders will take the Art elective during the 1st quarter and sixth graders during the 2nd quarter.
