Journeying with God: A Survey of the Old Testament Part 2

This survey course is intended to give students an overview of the second half of the 39 books of the Old Testament. The course is structured to provide basic information about each of the books as students are guided through exercises, discussions, and enrichment activities. A strong emphasis in this course is helping students see the “big picture” perspective as they study how God has worked through His people to carry out His plan of salvation.

Mass Communications and Technology (Technology Elective)

Students will explore mass communications through the world of journalism. Students will work as editors and in leadership positions for the production of the school yearbook. Students will work with digital processing and photography, design, layout, and editing. Students will study and visit different mass communications careers and companies in the Richmond area.
